

TRANSFER GUIDE FOR SOUTH CAROLINA TECHNICAL COLLEGES

The South Carolina Course Articulation and Transfer System serves as the primary tool and source of information for transfer of academic credit between and among institutions of higher education in the state. The system provides institutions with the software tools needed to update and maintain course articulation and transfer information easily. The student interface of this system is the South Carolina Transfer and Articulation Center (SCTRAC) web portal: www.SCTRAC.org (<http://www.SCTRAC.org>). This web portal is an integrated solution to meet the needs of South Carolina's public colleges and universities and their students and is designed to help students make better choices and avoid taking courses which will not count toward their degree. Each institution's student information system interfaces with www.SCTRAC.org (<http://www.SCTRAC.org>) to help students and institutions by saving time and effort, while ensuring accuracy and timeliness of information.
